

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

To cultivate the religious sentiment in the heart, and to furnish the minds of our children with scriptural knowledge, are the objects of Sunday-school discipline and instruction. To further and facilitate the latter of these objects, is the design of the Old and New Testament Biographies.

Mr. Wood, Sheriff of Peeblesshire, Scotland, the author of the book, is a member of the Scottish Episcopal Communion, but prepared this work principally, we believe, for the use of the Sabbath-schools of the Kirk of Scotland, in Edinburgh, about twenty years ago.

Written under circumstances which would have provoked many persons to compromise with themselves for a compulsory silence on the points of difference between the two churches, by the frequent and impertinent obtrusion of other sectarian opinions common to both, it says much for the candor and common sense of Mr. Wood, that he has simply followed the course indicated by the title of the work, and given us a compilation of Scripture Biography which may be adopted without hesitation, and with great advantage, by the Sunday-schools of every Christian denomination.

By its mode of treating of each of its personages apart from the others, the information it excites by its questions is fastened more forcibly upon the mind of the pupil than can be done by the narrative method, in which the characters of the history follow each other in succession so numerous and rapid as to leave but hazy and indistinct recollections of most of them; and at the same time, by pursuing the course of each life to its close, thus frequently ranging over quite a number of chapters, it necessitates a personal perusal of the Scriptures, which must result in a substantial and familiar acquaintance with their historical contents. To facilitate the labors of the Sunday-school teacher, by imparting to the study of the scholar the zest of an intelligent interest in his Bible, is our hope and aim in introducing this useful little work to the religious nurseries of our denomination. May it be efficient in adding to the number, and contributing to the spiritual nourishment, of that portion of the flock whom the great Pastor is said to "gather with his arm, and carry in his bosom."* A. G. T.

To cultivate the religious sentiment in the heart, and to furnish the minds of our children with scriptural knowledge; are the objects of Sunday-school discipline and instruction. To further and facilitate the latter of these objects, is the design of the Old and New Testament Biographies.

Mr. Wood, Sheriff of Peeblesshire, Scotland, the author of the book, is a member of the Scottish Episcopal Communion, but prepared this work principally, we believe, for the use of the Sabbath-schools of the Kirk of Scotland, in Edinburgh, about twenty years ago.

Written under circumstances which would have provoked many persons to compromise with themselves for a compulsory silence on the points of difference between the two churches, by the frequent and impertinent obtrusion of other sectarian opinions common to both, it says much for the candor and common sense of Mr. Wood, that he has simply followed the course indicated by the title of the work, and given us a compilation of Scripture Biography which may be adopted without hesitation, and with great advantage, by the Sunday-schools of every Christian denomination.

By its mode of treating of each of its personages apart from the others, the information it excites by its questions is fastened more forcibly upon the mind of the pupil than can be done by the narrative method, in which the characters of the history follow each other in succession so numerous and rapid as to leave but hazy and indistinct recollections of most of them; and at the same time, by pursuing the course of each life to its close, thus frequently ranging over quite a number of chapters, it necessitates a personal perusal of the Scriptures, which must result in a substantial and familiar acquaintance with their historical contents. To facilitate the labors of the Sunday-school teacher, by imparting to the study of the scholar the zest of an intelligent interest in his Bible, is our hope and aim in introducing this useful little work to the religious nurseries of our denomination. May it be efficient in adding to the number, and contributing to the spiritual nourishment, of that portion of the flock whom the great Pastor is said to "gather with his arm, and carry in his bosom."* A.
